STOP GOVERNMENT CUTS TO EDUCATION AND HEALTH CARE

WE ARE THE PEOPLE.

FULLY FUND PUBLIC SERVICES.

Ontario's spending on public services per person is the lowest in Canada. It's time to fund public services, not cut them!

TAKE ACTION NOW! CONTACT:

Premier Doug Ford:

DOUG FORD IS BAD FOR EDUCATION:

- Students will fall through the cracks with larger class sizes and less funding to education.
- Mandatory e-learning for high school students reduces access to education.
- Cuts to education will result in fewer teachers and education workers and fewer resources to meet the diverse needs of students.

DOUG FORD IS BAD FOR HEALTH CARE:

- Ontarians will have limited access to health care with the creation of a new health Super Agency with sweeping powers to force privatization, cuts, megamergers, movement of services from one town to another and closure of local health care services.
- Planned cuts to OHIP-covered services by $500 million will result in less coverage.
- Cutting OHIP+ for young people means families with sick kids are hit hardest.

STUDENTS SHOULDN'T HAVE TO PAY FOR GOVERNMENT CUTS!

- Children and youth will fall through the cracks with larger class sizes and less funding to education.
- Cuts to education will result in fewer teachers and education workers and fewer resources to meet the diverse needs of students.
- Cuts to education mean fewer supports for special education, less money to fix buildings, and the potential closing of community schools.
- Possible changes to the teacher and ECE model of Full-day Kindergarten would take away a great start from Ontario's youngest students.
- Mandatory e-learning for high school students reduces access to education.
- Rolling back of the health curriculum to 1998 undermines the health and safety of Ontario students.

ONTARIO MUST INVEST IN OUR CHILDREN AND THEIR FUTURE.
DON'T MAKE THEM PAY FOR GOVERNMENT CUTS.
